

Week 26: Final week

November 28, 8:30 am Pacific/11:30 am Eastern

Overview

This week, everyone will take turns presenting for three minutes about what they did or will do for their final assignment. You can also use some of this time for reflections on the course and what you've learned. Please come prepared to ask questions of your fellow cohort members! And don't forget to upload your final assignment (or an outline/summary of it) to Github!
