

Bryan Jones
LFI Week 2
Surveillance Technology Community Information Session

This is a quick sketch of what such a program would look like if hosted at the library as library sponsored program. The focus could be narrowed to just CCTVs at the library, or broadened to cover the whole city.

Info gathering:

- find out where the cameras are located
- find out who has access to footage
- can can public access it
 - > *if info is hard to find*

Invite guests:

- representative of Metro Police
- library Safety and Security Manager
- representative from surveillance tech manufacturer
- representative of ACLU-TN
- representative local civil rights org
- criminal justice, legal, or civil rights scholar(s)
- local politician
- moderator (librarian, scholar, or journalist)

Format

- short presentation by host, *then*
- panel discussion lead by moderator, *then*
- audience Q&A

Other to-dos

- write script for presentation hitting on these key points:
 - > *what are the cameras for*
 - > *what are the costs*
 - > *data about efficacy*
 - > *data about abuses (e.g. why was this necessary)*
- create handout with above info condensed
- create marketing plan with library PR team
 - > *touch base with local civil rights org*
 - > *craft a press release*
 - > *craft a social media plan*
