

HOW TO CREATE A DICEWARE PASSPHRASE

creating a [nearly] uncrackable passphrase

WHAT YOU'LL NEED:

- 5 dice or use the dice roller at random.org/dice
- EFF word list (https://www.eff.org/files/2016/07/18/eff_large_wordlist.txt)

1 ROLL

roll 5 dice and write down the corresponding numbers.
For example, your roll might look something like this:

You rolled 5 dice:

2 WORD FIND

go to the EFF word list and write down the word that corresponds with what you rolled.

For the roll pictured above, we'll choose the word the corresponds with 55531.

55526	spoken
55531	spokesman
55532	sponge
55533	spoon

3 REPEAT

repeat steps 1 & 2 five more times until you have six word passphrase.
Your completed passphrase will look something like this:

spokesman refined showplace outlet culture calcium

4 REMEMBER

come up with a mnemonic device to help you remember the words in order. It can be nonsensical as long as you can remember it!

The **spokesman** of the **refined showplace** found an **outlet** where he could discuss the **culture** of **calcium**.
