Personal Learning:
- Make connections with other librarians interested in these issues; explore what we can accomplish through collaboration and information sharing
- Make connections with non-librarians interested in/affected by these issues; explore what we can accomplish through collaboration and information sharing
- Become informed about the major problems and the solutions; stay up-to-date

Teaching Others:
- Rework the content to create lesson plans for library workshops for the public and create an accessible online repository of these plans
- Educate staff at my library in formal and informal ways
- Look into information-sharing through conferences
